OUR STORY

GMI was born out of the Rockefeller Foundation's Digital Jobs in Africa Initiative

We saw that good jobs were being created, but not going to the underserved youth targeted

We identified two needs:

- Address the soft skills knowledge gap
- Increase access to open positions

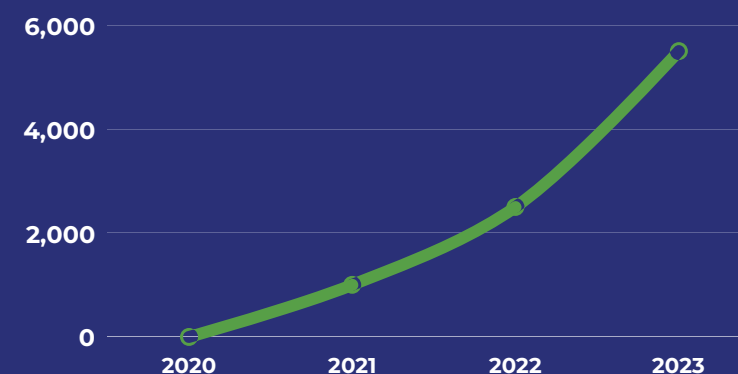

We built a structured, remote mentorship program with measurable impact and ability to scale!

GMI Founder Jon Browning with first student cohort - 2019

OUR IMPACT

In 3 years, we have grown from supporting 4 students to 5K in 90+ countries. Hundreds are employed. We have built a community of dozens of committed university, nonprofit, and corporate partners.

- 37-point average increase in career confidence & skills after mentorship (53 → 90)
- 76% of students globally had a job within 6 months of graduating
- 82% say the GMI program was very important in helping them get hired
